

Tactical Automated Mission Planning System (TAMPS) Overview

**LCDR Steve Hope
Naval Mission Planning Program Office (PMA-233)
11 February 2003**

TAMPS Status

- **TAMPS Version 6.2.1 released in Jan 02**

- ✓ Fully deployed on all CV/CVNs by Oct 02
- ✓ Last planned version upgrade
- ✓ Now in maintenance/sustainment mode (high priority STR fixes, support for MPM upgrades)

- **TAMPS Patch Set 1 released in Jan 02 with 6.2.1**

- ✓ COTS Security patches
- ✓ Updated ARC-210 Core Extension
- ✓ Weather retrieval fix
- ✓ Common Desktop Environment fix

- **TAMPS Patch Set 2 released in Jan 03**

- ✓ COTS Security patches
- ✓ Imagery query/retrieval fixes
- ✓ GPS Almanac Website improvement

- **TAMPS MPM Upgrades**

- ✓ F/A-18 - support for latest OFPs and avionics
- ✓ TAMMAC - support for latest Hornet OFP
- ✓ SHARP - in test to support new recon pod
- ✓ JSOW/JDAM - in test to support JSOW C

TAMPS Future

- **TAMPS Replacement Plan**

- ✓ Will be phased out with fielding of JMPS beginning in Summer 2004
- ✓ TAMPS Workstations will remain fielded through FY05 in support of SLAM-ER mission planning
- ✓ Support/training will be maintained until TAMPS fully retired

- **TAMPS MPM Upgrades**

- ✓ Expect to see upgraded MPMs for:
 - F/A-18
 - E-2C
 - JSOW/JDAM
 - SLAM-ER (Potential maintenance upgrade)
- ✓ Expect to see several more Core Patch Sets in FY03/04
 - Patch Set 3 in test and mainly includes COTS Security fixes
 - Patch Set 4 in development

If you see a significant functional fault or shortfall, submit a Software Trouble Report or pass info to TAMPS Shiprider or Help Desk!
